### **Abstract**

- Highly Biodegradable lipids for LNP therapeutics are known to improve tolerability and potency.
- Tracking the fate of these nanoparticles *in vivo* poses challenges as the lipids and metabolites are labile and incompatible with conventional detection techniques.
- This presentation shall address our approach to solving the bioanalytical challenges and the result of metabolism and excretion studies.

NOF CORPORATION invites attendees to visit booth #1 to explore its innovative drug delivery solutions and engage with its experts.
